The property portfolio specialists

‘Why some of the leading
property experts are buying
more property NOW!’

“Rents are rising and UK property prices have fallen to significant lows. The ‘credit crunch’ will end, and when it does there will still be a UK housing shortage – that’s why I am buying property NOW

“We are currently witnessing the biggest property sale in over 15 years. Property market conditions are perfect for buyers – that’s why I am buying NOW and advising my clients to follow suit”

“Current market conditions present the best investment opportunities we have seen in over a decade and, despite the credit crunch, mortgage finance is available”

“I like most professional landlords take a long term view, so with rents increasing at their fastest rate for years, bank base rate low and less competition for properties – why shouldn’t I start collecting some low hanging fruit NOW?”
